1 'In combination' means in combination with one or more other races. The sum of the five race groups adds to more than the total population because individuals may report more than one race.

\*The data were restructured on the basis of the data obtained from the following source: Table 5 Estimates of the Resident Population by Race Alone or in Combination and Hispanic Origin for the United States and States: July 1, 2011 (SC-EST2011-05). Release Date: May 2012.

Note: Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race. Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this table versus those in the original 2010 Census data.
